1. Record Nr. UNINA990009394780403321

Autore	Korey, Saul R.
Titolo	The biology of myelin / edited by Saul R. Korey
Pubbl/distr/stampa	New York : Hoeber-Harper, 1959
Descrizione fisica	xxii, 405 p. : ill. ; 24 cm
Collana	Progress in neurobiology ; 4
Disciplina	612.81
Locazione	DMVSF
Collocazione	IIIg C 3
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr. UNINA9910576878503321

Autore	Ikhsanov Nazar R
Titolo	Advances in the Physics of Stars - in Memory of Prof. Yuri N. Gnedin
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
Descrizione fisica	1 online resource (222 p.)
Soggetti	Physics Research & information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This reprint, which was edited by Prof. Dr. Nazar R. Ikhsanov, Prof. Dr. Galina L. Klimchitskaya, and Prof. Dr. Vladimir M. Mostepanenko, contains research and review articles published in a Special Issue of the

journal Universe in memory of outstanding astrophysicist Prof. Dr. Yuri N. Gnedin, who organized and led the Department of Astrophysics at the famous Pulkovo Observatory of the Russian Academy of Sciences for several decades. In these articles, the reader will find new and intriguing ideas in several topical problems of astrophysics as well as comprehensive and readily accessible sketches of a few recently performed investigations.
