1. Record Nr. UNINA9910555066703321

Titolo	Changing patterns in fertilizer use / / editorial committee, L. B. Nelson [and five others] ; sponsored by the Soil Science Society of America
Pubbl/distr/stampa	Madison, Wisconsin : , : Soil Science Society of America, , 1968
ISBN	0-89118-870-3
Descrizione fisica	1 online resource (xiv, 466 pages)
Disciplina	631.8
Soggetti	Fertilizers Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr. UNISA996466161103316

Titolo	Autonomic Management of Mobile Multimedia Services [[electronic resource]] : 9th IFIP/IEEE International Conference on Management of Multimedia and Mobile Networks and Services, MMNS 2006, Dublin, Ireland, October 25-27, 2006, Proceedings / / edited by Ahmed Helmy, Brendan Jennings, LIam Murphy, Tom Pfeifer
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2006
ISBN	3-540-47655-5
Edizione	[1st ed. 2006.]
Descrizione fisica	1 online resource (XIV, 262 p.)
Collana	Computer Communication Networks and Telecommunications ; ; 4267
Disciplina	004.6068
Soggetti	Computer communication systems Multimedia information systems Information storage and retrieval User interfaces (Computer systems) Application software Electrical engineering Computer Communication Networks Multimedia Information Systems Information Storage and Retrieval User Interfaces and Human Computer Interaction Information Systems Applications (incl. Internet)

	Communications Engineering, Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Multimedia over Wireless (1) -- Enhanced Multimedia and Real-Time Stream Throughput in Wireless Ad-Hoc LAN Using Distributed Virtual Channel Based MAC -- Adaptive Streaming of Combined Audio/Video Content over Wireless Networks -- Management of IEEE 802.11e Wireless LAN for Realtime QoS-Guaranteed Teleconference Service with Differentiated H.264 Video Transmission -- Mobile Ad-Hoc Networks -- Link Available Bandwidth Monitoring for QoS Routing with AODV in Ad Hoc Networks -- An Efficient and Robust Service Discovery Protocol for Dynamic MANETs -- Modeling Energy Consumption in Error-Prone IEEE 802.11-Based Wireless Ad-Hoc Networks -- Video Streaming -- MaVIS: Media-aware Video Streaming Mechanism -- On the Power of Cooperation in Multimedia Caching -- Delay Constrained Spatio-temporal Video Rate Control for Time-Varying Rate Channels -- Short Papers -- A Scalable Framework for Content Replication in Multicast-Based Content Distribution Networks -- VidShare: A Management Platform for Peer-to-Peer Multimedia Asset Distribution Across Heterogeneous Access Networks with Intellectual Property Management -- A Service-Oriented Framework to Promote Interoperability Among DRM Systems -- A Distributed Hierarchical Structure for Object Networks Supporting Human Activity Recognition -- A Bandwidth-Broker Based Inter-domain SLA Negotiation -- Efficiency of Loss Differentiation Algorithms in 802.11 Wireless Networks -- Seamless Mobility -- Towards Autonomic Handover Decision Management in 4G Networks -- Evaluation of an Intelligent Utility-Based Strategy for Dynamic Wireless Network Selection -- Overlays on Wireless Mesh Networks: Implementation and Cross-Layer Searching -- Bandwidth Provisioning and Control -- Adaptive Quality of Service Management for Next Generation Residential Gateways -- On the Location-Awareness of Bandwidth Allocation and Admission Control for the Support of Real-Time Traffic in Class-Based IP Networks -- An Integrated Network Management Framework for Inter-domain Outbound Traffic Engineering -- Multimedia over Wireless (2) -- RTS/CTS Based Endpoint Admission Control for VoIP Over 802.11e -- Improving Multicast Stability in Mobile Multicast Scheme Using Motion Prediction -- End-to-End QoS Issues of MPEG4-FGS Video Streaming Traffic Delivery in an IP/UMTS Network.
Sommario/riassunto	th This volume presents the proceedings of the 9 IFIP/IEEE International Conference on Management of Multimedia and Mobile Networks and Services (MMNS 2006), th th which was held from October 25 to 27 as part of Manweek 2006 in Dublin,Ireland. In line with its reputation as one of the pre-eminent fora for the discussion anddebate of advances in management of multimedia networks and services, the 2006 iteration of MMNS brought together an international audience of researchers and practitioners from both industry and academia. One of the most signi?cant trends of recent years has been the development and considerable market penetration of multimedia-capable mobile handsets. Nevertheless, signi?cant research challenges remain in the

area of management of mobile networks supporting multimedia services; challenges which must be addressed by the research community if the vision of ubiquitous availability of advanced multimedia services is to be realised. The MMNS Steering Committee, noting the growing interest within the research community on solving issues relating speci?cally to the transport of multimedia traf?c over various mobile access technologies, made the signi?cant decision to change the long name of the MMNS conference to re?ect this change in focus. For2006 and subsequent years, it will be called “Management of Multimedia and Mobile Networks and Services”.
