| Sommario/riassunto | A Story in Three Parts, a Character in Six. Think people can be disingenuous? Of course they can and in the future they try on new personas like hats. Unfortunately, Hieronymus Jones overdoses it with the TPGs (temporary personality grafts), leaving his original personality utterly destroyed. That would be okay, since he's kinda boring, until an |

experimental cure gives him not one, but six new permanent personalities. Rather than fight over territory, each inhabits a different part of his body, and soon finds they can break apart at will! There's: Bogey, the hard-boiled right arm; Kik-li, the Kung-Fu master right leg; Jake, the self-involved torso; Buckley, the too-smart head; Don, the romantic left arm and; Tootsie, the femme fatale left leg! Together, they fight corruption and crime as the strangest superhero team ever! In the issue: "All of Me", the exciting conclusion, the desperate rebel leader Bernardo plots to bring down the mega-wall protecting NYC from the rising sea. Can Counterparts stop him? As it turns out, no! But when Derkle attempts to escape in his mini-sub, they may still be able to bring the wicked CEO to their special, piecemeal form of justice! From bestselling author Stefan Petrucha.
