1. Record Nr. UNISALENTO991001886899707536

Autore	Zenatti, Albino
Titolo	Arrigo Testa e i primordi della lirica italiana / Albino Zenatti
Pubbl/distr/stampa	Firenze : Sansoni, 1896
Edizione	[Nuova ed. /]
Descrizione fisica	VII, 89 p. ; 20 cm
Collana	Biblioteca critica della letteratura italiana
Soggetti	Testa, Arrigo
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr. UNINA9910794493603321

Autore	Paris Joel <1940->
Titolo	Nature and nurture in mental disorders : a gene-environment model / / Joel Paris, M.D
Pubbl/distr/stampa	Washington, District of Columbia : , : American Psychiatric Association Publishing, , [2021] ©2021
ISBN	9781615373680 1615373683
Descrizione fisica	1 online resource (xxi, 182 pages)
Disciplina	616.89042
Soggetti	Mental illness - Genetic aspects Stress (Psychology) Psychology, Pathological Mental Disorders - genetics Mental Disorders - psychology Genetic Predisposition to Disease Stress, Psychological Models, Psychological
Lingua di pubblicazione	Inglese

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Preceded by: Nature and nurture in psychiatry : a predisposition-stress model of mental disorders / by Joel Paris. Washington, DC : American Psychiatric Press, Inc., c1999.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Historical Overview -- Genetic Predispositions -- Environmental Stressors -- Gene-Environment Interactions -- Diagnoses, Disorders, and Traits -- ADHD and Conduct Disorder -- Schizophrenia -- Depressive Disorders -- Anxiety Disorders and OCD -- Posttraumatic Stress Disorder -- Eating Disorders -- Substance-Related and Addictive Disorders -- Personality Disorders -- Clinical Implications -- Implications for Prevention and Further Research.
Sommario/riassunto	"Over the last two decades, spurred particularly by the decoding of the genome, neuroscience has advanced to become the primary basis of clinical psychiatry, even as environmental risk factors for mental disorders have been deemphasized. In this thoroughly revised, second edition of Nature and Nurture in Mental Disorders, the author argues that an overreliance on biology at the expense of environment has been detrimental to the field-that, in fact, the "nature versus nurture" dichotomy is unnecessary. Instead, he posits a biopsychosocial model that acknowledges the role an individual's predisposing genetic factors, interacting with environmental stressors, play in the etiology of many mental disorders. The first several chapters of the book provide an overview of the theories that affect the study of genes, the environment, and their interaction, examining what the empirical evidence has revealed about each of these issues. Subsequent chapters apply the integrated model to a variety of disorders, reviewing the evidence on how genes and environment interact to shape disorders including depressive disorders, PTSD, neurodevelopmental disorders, eating disorders, and personality disorders. By rejecting both biological and psychosocial reductionism in favor of an interactive model, Nature and Nurture in Mental Disorders offers practicing clinicians a path toward a more flexible, effective treatment model. And where controversy or debate still exist, an extensive reference list provided at the end of the book, updated for this edition to reflect the most current literature, encourages further study and exploration"--

3. Record Nr. UNIORUON00271237

Autore	RENTON, Linda
Titolo	Pinter and the object of desire : an approach through the screenplays / Linda Renton
Pubbl/distr/stampa	Oxford, : European Humanities Research Centre, 2002
ISBN	19-00-75553-X
Descrizione fisica	xii, 182 p. ; 22 cm.
Disciplina	791.4375
Soggetti	PINTER HAROLD - Sceneggiatura SCENEGGIATURA CINEMATOGRAFICA - Critica
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
