| Sommario/riassunto      | The book offers a linguistic analysis of job advertising as an instrument   |

of employer branding, investigating how the creation of the employer brand and the projection of employee value proposition are realised linguistically in a corpus of online job advertisements. The study is methodologically grounded in the current approaches to discourse analysis and business/organisational communication, as it is broadly understood, with particular emphasis on genre and register analysis, the language of persuasion and evaluation, as well as the language of (organisational) values. The analysis conducted
