

1. Record Nr.	UNIBAS000006634
Titolo	Recent developments in geotechnical engineering for hydro projects : embankment dam instrumentation performance, engineering geology aspects, rock mechanics studies / proceedings of three sessions sponsored by the Geotechnical Engineering Division at the ASCE International Convention, New York City, May 11 and 12, 1981 ; editor: Fred H. Kulhawy
Pubbl/distr/stampa	New York : American Society of Civil Engineers, c1981
ISBN	0-87262-269-X
Descrizione fisica	246 p. : ill. ; 22 cm.
Disciplina	627.83
Soggetti	Geotecnica Dighe in terra
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
