Sommario/riassunto	The twelfth-century Iranian mystic 'Ayn al-Qut al-Hamadhn (d. 1131) wrote vividly of his explorations of death as a state of consciousness which he experienced while alive. This state and his visions of Doomsday and the innumerable non-corporeal worlds that lie past the world of matter confront him with paradoxical realities that upset the notional understanding of faith. The present book concerns itself with a discussion on the subject of death as it is viewed by one of the defining mystic scholars of medieval Iran. Based on medieval manuscripts and primary sources in classical Persian and Arabic, this book explores the significance of this important Iranian mystic and his insights on the nature of reality in light of death.

Sommario/riassunto	Henry Fairlie was one of the most colorful and trenchant journalists of the twentieth century. The British-born writer made his name on Fleet Street, where he coined the term "The Establishment," sparred in print with the likes of Kenneth Tynan, and caroused with Kingsley Amis, among many others. In America his writing found a home in the pages of the New Yorker and other top magazines and newspapers. When he died, he was remembered as "quite simply the best political journalist, writing in English, in the last fifty years."Remarkable for their prescience and relevance, Fairlie's essays celebrate Winston Churchill, old-fashioned bathtubs, and American empire; they ridicule Republicans who think they are conservatives and yuppies who want to live forever. Fairlie is caustic, controversial, and unwavering-especially when attacking his employers. With an introduction by Jeremy McCarter, Bite the Hand That Feeds You restores a compelling voice that, among its many virtues, helps Americans appreciate their country

anew.
