| Sommario/riassunto | The purpose of the ISO/IEC/IEEE 29119 Software Testing standards is to define an internationally-agreed set of standards for software testing that can be used by any organization when performing any form of software testing. ISO/IEC/IEEE 29119-5 defines Keyword-Driven Testing, which is an approach to describing test cases in a modular |

way. This standard explains the main concepts and attributes of Keyword-Driven Testing and is applicable to all those who want to create keyword-driven test specifications, create corresponding frameworks, or build test automation based on keywords. This standard defines requirements on frameworks for Keyword-Driven Testing to.
