Sommario/riassunto

Reflections on Global Law provides an interesting and vital look into the newly emerging field of global law. It allows the possibility for readers to discover global law from the perspective of various academic experts who stem from a whole range of different legal disciplines. In a globalised world, it is important that one is able to look beyond the 'local', given that there are now a whole host of different types of jurisdictions at work. This book touches upon the interdisciplinary character and complexities of global law and demonstrates the further need, within academia, to delve into this newly emerging field of law.
