Sommario/riassunto

"In an era that demands ever-increasing levels of accountability and documentation, Family Assessment is a vital tool for clinicians. It covers more than one hundred assessment methods, both the most widely strategies as well as those that are more specialized and issue specific. Techniques and instruments for assessments are summarized concisely in tables and discussed in depth in the chapters, often by the experts who developed the approaches they describe. Each chapter is also supplemented by recommended strategies for utilizing the assessment tools, as well as by case studies and observational method matrices. Readers will find the second edition of Family Assessment to provide the same comprehensive evaluation and thorough analysis as the first edition but with a fully updated focus that will invigorate the work of researchers, educators, and clinicians"--

Sommario/riassunto

This is the first full-scale commentary on Euripides' Alexandros, which is one of the best preserved fragmentary tragedies. It yields insight into aspects of Euripidean style, ideology and dramatic technique (e.g. rhetoric, stagecraft and imagery) and addresses textual and philological matters, on the basis of a re-inspection of the papyrus fragments. This book offers a reconstruction of the play and an investigation of issues of characterization, staging, textual transmission and reception, not least because Alexandros has enjoyed a fascinating *Nachleben* in literary, dramaturgical and performative terms. It also contributes to the readers' understanding of the trends of later Euripidean drama, especially the dramatist's innovation and experimentation with plot-patterns and staging conventions. Furthermore, the analysis of Alexandros could stimulate a more comprehensive reading of the extant Trojan Women coming from the same production, which bears the features of a 'connected trilogy'. Thus, the information retrieved through the interrogation of the rich fragmentary material serves to supplement and contextualize the extant tragic corpus, showcasing the vitality and multiformity of Euripidean drama as a whole.
