1. Record Nr.   UNICAMPANIASUN0115263

   Autore   Le Dret, Hervé

   Titolo   Partial differential equations : modeling, analysis and numerical
                        approximation / Hervé Le Dret, Brigitte Lucquin

   Pubbl/distr/stampa   XI, 395 p., : ill. ; 24 cm

   Edizione   [Cham : Birkhäuser : Springer, 2016]

   Descrizione fisica   Pubblicazione in formato elettronico

   Altri autori (Persone)   Lucquin, Brigitte

   Soggetti   35J25 - Boundary value problems for second-order elliptic equations
                        [MSC 2020]
                        35K05 - Heat equation [MSC 2020]
                        65N30 - Finite elements, Rayleigh-Ritz and Galerkin methods, finite
                        methods for boundary value problems involving PDEs [MSC 2020]
                        35L05 - Wave equation [MSC 2020]
                        35K20 - Initial-boundary value problems for second-order parabolic
                        equations [MSC 2020]
                        65M06 - Finite difference methods for initial value and initial-boundary
                        value problems involving PDEs [MSC 2020]
                        65M12 - Stability and convergence of numerical methods for initial
                        value and initial-boundary value problems involving PDEs [MSC 2020]
                        35J20 - Variational methods for second-order elliptic equations [MSC
                        2020]
                        65M08 - Finite volume methods for initial value and initial-boundary
                        value problems involving PDEs [MSC 2020]
                        35L03 - Initial value problems for first-order hyperbolic equations
                        [MSC 2020]

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia
