Sommario/riassunto	Fanon, postcolonialism and the ethics of difference offers a new reading of Fanon's work challenging many of the reconstructions of Fanon in critical and postcolonial theory and in cultural studies, probing a host of crucial issues: the intersectionality of gender and colonial politics; the biopolitics of colonialism; Marxism and decolonisation; tradition, translation and humanism. It will be of particular value to advanced undergraduate and postgraduate students, as well as to academics interested in Fanon and postcolonial studies generally.
