| Sommario/riassunto | This Book includes selected papers that has been published in the |

Water journal Special Issue (SI) on Water Supply and Water Scarcity. Moreover, an overview of the SI is included. The papers selected for publication in the SI include review and research papers on water history, on water management issues under water scarcity regimes, on rainwater harvesting, on water quality and degradation, and on climatic variability impacts on water resources. Overall, the issue identify and highlight the main challenges in water sector, and particularly in management and protection of water resources and in use of alternative (non-conventional) water resources, especially in areas with demographic change and climate vulnerability in order to achieve sustainable and secure water supply. Furthermore, general guidelines and possible solutions for an improved and sophisticated water management system are proposed and discussed, such as the adoption of advanced technological solutions and practices that improve water-use efficiency and the use of alternative water resources, to address the growing environmental and health issues and to reduce the emerging conflicts among water users.

3. Record Nr.	UNICAMPANIAVAN00057280
Autore	Liptser, Robert S.
Titolo	2: Applications / Robert S. Liptser, Albert N. Shiryaev ; translation editor: Stephen S. Wilson
Pubbl/distr/stampa	Berlin, : Springer, 2001
ISBN	35-406-3928-4
Edizione	[2.]
Descrizione fisica	XV, 402 p. ; 24 cm
Altri autori (Persone)	Shiryaev, Albert N.
Soggetti	60Gxx - Stochastic processes [MSC 2020] 60Hxx - Stochastic analysis [MSC 2020] 60Jxx - Markov processes [MSC 2020] 62Lxx - Sequential statistical methods [MSC 2020] 62Mxx - Inference from stochastic processes [MSC 2020] 62Nxx - Survival analysis and censored data [MSC 2020] 93Exx - Stochastic systems and control [MSC 2020] 94A05 - Communication theory [MSC 2020]
