Sommario/riassunto	<p>The Bulletin of the Menninger Clinic has a long and distinguished history, publishing seminal works in psychiatry and psychology since 1936, and continues its wide reach to psychologists, psychiatrists, therapists, nurses, and those in graduate training.</p> <p>The Bulletin's primary focus is psychopathology research that is broad based. In particular, the Bulletin will publish manuscripts of sound methodology and clinical significance over a range of topics pertaining to psychopathology, assessment, and intervention without adherence to a particular theoretical orientation.</p>
