| 1. Record Nr. | UNICAMPANIAVAN00274401 |
| Autore | Weisz, Ferenc |
| Titolo | Lebesgue Points and Summability of Higher Dimensional Fourier Series / Ferenc Weisz |
| Pubbl/distr/stampa | Cham, : Birkhäuser, : Springer, 2021 |
| Descrizione fisica | xiii, 290 p. : ill. ; 24 cm |
| Soggetti | 32A35 - H^p -spaces, Nevanlinna spaces of functions in several complex variables [MSC 2020] 40G05 - Cesàro, Euler, Nörlund and Hausdorff methods [MSC 2020] 42A24 - Summability and absolute summability of Fourier and trigonometric series [MSC 2020] 42A38 - Fourier and Fourier-Stieltjes transforms and other transforms of Fourier type [MSC 2020] 42A50 - Conjugate functions, conjugate series, singular integrals [MSC 2020] 42B08 - Summability in several variables [MSC 2020] 42B25 - Maximal functions, Littlewood-Paley theory [MSC 2020] 46B70 - Interpolation between normed linear spaces [MSC 2020] |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
