   Titolo   A Generalization of Bohr-Mollerup's Theorem for Higher Order Convex
                        Functions / Jean-Luc Marichal, Naïm Zenaïdi

   Pubbl/distr/stampa   Cham, : Springer, 2022

   Descrizione fisica   xviii, 323 p. : ill. ; 24 cm

   Altri autori (Persone) Zenaïdi, Naïm

   Soggetti   26A51 - Convexity of real functions in one variable, generalizations
                        [MSC 2020]
                        33B15 - Gamma, beta and polygamma functions [MSC 2020]
                        33B20 - Incomplete beta and gamma functions (error functions,
                        probability integral, Fresnel integrals) [MSC 2020]
                        39A06 - Linear difference equations [MSC 2020]
                        39A60 - Applications of difference equations [MSC 2020]
                        39B22 - Functional equations for real functions [MSC 2020]
