

1. Record Nr.	UNICAMPANIAVAN00289451
Autore	Enock, Michel
Titolo	Kac Algebras and Duality of Locally Compact Groups / Michel Enock, Jean-Marie Schwartz ; Preface by Alain Connes ; Postface by Adrian Ocneanu
Pubbl/distr/stampa	Berlin ; Heidelberg, : Springer-Verlag, 1992
Descrizione fisica	x, 257 p. ; 24 cm
Altri autori (Persone)	Schwartz, Jean-Marie
Soggetti	16D90 - Module categories in associative algebras; module theory in a category-theoretic context; Morita equivalence and duality [MSC 2020] 17B37 - Quantum groups (quantized enveloping algebras) and related deformations [MSC 2020] 22-XX - Topological groups, Lie groups [MSC 2020] 22D25 - C*-algebras and W*-algebras in relation to group representations [MSC 2020] 22D35 - Duality theorems for locally compact groups [MSC 2020] 43A30 - Fourier and Fourier-Stieltjes transforms on nonabelian groups and on semigroups, etc. [MSC 2020] 43A65 - Representations of groups, semigroups, etc. (aspects of abstract harmonic analysis) [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
