

1. Record Nr.	UNICAMPANIAVAN00301276
Autore	Zavidovique, Maxime
Titolo	Discrete Weak KAM Theory : An Introduction through Examples and its Applications to Twist Maps / Maxime Zavidovique
Pubbl/distr/stampa	Cham, : Springer, 2025
Descrizione fisica	xv, 188 p. : ill. ; 24 cm
Soggetti	35D40 - Viscosity solutions to PDEs [MSC 2020] 35F21 - Hamilton-Jacobi equations [MSC 2020] 37E45 - Rotation numbers and vectors [MSC 2020] 37J51 - Action-minimizing orbits and measures for finite-dimensional Hamiltonian and Lagrangian systems; variational principles; degree-theoretic methods [MSC 2020] 49-XX - Calculus of variations and optimal control; optimization [MSC 2020] 49L12 - Hamilton-Jacobi equations in optimal control and differential games [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Foreword written by Albert Fathi
