The author digs deeper into the hearts and minds, and plights of victims to inspire the society to stand with, and support them. The book offers some nuggets such as, understanding the phenomenon, confronting it and stopping wars that cause sufferings such as rape and death. It champions the urgency of voice for all and sundry. It challenges the industries of technologies of crime and violence to rise above selfish self-interest in the interest of human rights and voicing the voiceless victims of their greed.
