   Titolo   Space engineering : modeling and optimization with case studies / Giorgio Fasano, János D. Pintér editors

   Pubbl/distr/stampa   [Cham], : Springer, 2016

   Titolo uniforme   Space engineering. Modeling and optimization with case studies

   Descrizione fisica   XV, 487 p. : ill. ; 24 cm

   Soggetti   49-XX - Calculus of variations and optimal control; optimization [MSC 2020]
                                  90Bxx - Operations research and management science [MSC 2020]
                                  90C30 - Nonlinear programming [MSC 2020]
                                  37N05 - Dynamical systems in classical and celestial mechanics [MSC 2020]
                                  70Mxx - Orbital mechanics [MSC 2020]
                                  05B40 - Combinatorial aspects of packing and covering [MSC 2020]
                                  90-XX - Operations research, mathematical programming [MSC 2020]
                                  90C26 - Nonconvex programming, global optimization [MSC 2020]
                                  65K05 - Numerical mathematical programming methods [MSC 2020]
                                  37N40 - Dynamical systems in optimization and economics [MSC 2020]
                                  90C11 - Mixed integer programming [MSC 2020]
                                  90C29 - Multi-objective and goal programming [MSC 2020]
