Sommario/riassunto	The Covid-19 lockdowns caused people worldwide to be confined to their homes for longer and on a greater scale than ever before. This forced many unprecedented changes to the way we treat domestic space – as relationships shifted between the public and the private worlds, and homes were rapidly adapted to accommodate the additional roles of schools, offices, gyms, restaurants, making-spaces and more. Above all, our understanding of the home as a site to support and enhance the well-being of its inhabitants changed in a variety of novel ways.
