Sommario/riassunto	Counterfactuality is currently a hotly debated topic. While for some disciplines such as linguistics, cognitive science, or psychology counterfactual scenarios have been an important object of study for quite a while, counterfactual thinking has in recent years emerged as a method of study for other disciplines, most notably the social sciences. This volume provides an overview of the current definitions and uses of the concept of counterfactuality in philosophy, historiography, political sciences, psychology, linguistics, physics, and literary studies. The individual contributions not only engage the controversies that the deployment of counterfactual thinking as a method still generates, they also highlight the concept's potential to promote interdisciplinary exchange without neglecting the limitations and pitfalls of such a project. Moreover, the essays from literary studies, which make up about half of the volume, provide both a historical and a systematic perspective on the manifold ways in which counterfactual scenarios can be incorporated into and deployed in literary texts.

3. Record Nr.	UNICAMPANIAVAN0256686
Titolo	Algebraic K-Theory : Papers presented at the Conference held at Northwestern University, Evanston, January 12-16, 1976 / edited by Michael R. Stein
Pubbl/distr/stampa	Berlin, : Springer, 1976
Descrizione fisica	x, 409 p. ; 24 cm
Soggetti	14-XX - Algebraic geometry [MSC 2020] 18-XX - Category theory; homological algebra [MSC 2020] 00Bxx - Conference proceedings and collections of articles [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
