Nota di contenuto	Attachment: New Directions in Psychotherapy and Relational Psychoanalysis is a vibrant, cutting-edge journal promoting modern attachment theory in the clinical setting. Attachment brings together leading clinicians and theorists from around the world to provide an illuminating forum of outstanding papers and ideas from noted contributors. Alongside, you will find sections on poetry, art, book and film reviews, which advance mental health in a human and non-pathologising fashion. By tapping into the therapist's right-brain communication, this pioneering journal represents a major step in bringing to life attachment-based and relational psychoanalysis.
