1. Record Nr.   UNICAMPANIAVAN0260958

   Autore   Feinsilver, Philip J.

   Titolo   Special Functions, Probability Semigroups, and Hamiltonian Flows /
                       Philip J. Feinsilver

   Pubbl/distr/stampa Berlin, : Springer, 1978

   Descrizione fisica viii, 116 p. ; 24 cm

   Soggetti   60H05 - Stochastic integrals [MSC 2020]

                       33C45 - Orthogonal polynomials and functions of hypergeometric type
                       (Jacobi, Laguerre, Hermite, Askey scheme, etc.) [MSC 2020]
                       60J35 - Transition functions, generators and resolvents [MSC 2020]

                       33-XX - Special functions [MSC 2020]

                       33C05 - Classical hypergeometric functions, ${}_2F_1$ [MSC 2020]

                       44A45 - Classical operational calculus [MSC 2020]

                       47D03 - Groups and semigroups of linear operators [MSC 2020]

                       81R10 - Infinite-dimensional groups and algebras motivated by
                       physics, including Virasoro, Kac-Moody, W-algebras and other
                       current algebras and their representations [MSC 2020]

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia
