Sommario/riassunto	Eating Disorders: The Journal of Treatment and Prevention (EDJTP) is an internationally respected, peer-reviewed journal for clinicians, prevention specialists, and researchers in the field of eating disorders. Founded in 1993, EDJTP specializes in bridging the gap between science and practice with a focus on empirically sound, clinically applicable research. EDJTP takes a fundamentally practical, humanistic, compassionate view of clients and their presenting problems. The journal specifically publishes contributions that facilitate, inform, and assess efficacy of prevention and clinical treatment approaches and interventions.
