Sommario/riassunto	The European Review of Social Psychology (ERSP) is an international peer-reviewed journal, published under the auspices of the European Association of Social Psychology. It provides an outlet for substantial, theory-based reviews of empirical work addressing the full range of topics covered by the field of social psychology. Potential authorship is international, and papers are handled with the help of an international editorial board with extensive experience in theorizing, research, and journal editing. To do justice to the quality and diversity of perspectives and topics in our field, we welcome open submissions from all around the globe, and also actively invite submissions relevant to the journal and the broader field.
