1. Record Nr.   UNICAMPANIAVAN0273604

   Autore   Pudlák, Pavel

   Titolo   Logical foundations of mathematics and computational complexity : a gentle introduction / Pavel Pudlák

   Pubbl/distr/stampa Cham, : Springer, 2013

   ISBN   978-33-19-00118-0

   Descrizione fisica xiv, 695 p. : ill. ; 24 cm

   Soggetti   03F20 - Complexity of proofs [MSC 2020]
                       03E35 - Consistency and independence results [MSC 2020]
                       03D15 - Complexity of computation [MSC 2020]
                       03F03 - Proof theory, general (including proof-theoretic semantics) [MSC 2020]
                       03E30 - Axiomatics of classical set theory and its fragments [MSC 2020]
                       03F30 - First-order arithmetic and fragments [MSC 2020]
                       03F40 - Gödel numberings and issues of incompleteness [MSC 2020]
                       68Q15 - Complexity classes (hierarchies, relations among complexity classes, etc.) [MSC 2020]

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia
