

1. Record Nr.	UNICAMPANIAVAN0274401
Autore	Weisz, Ferenc
Titolo	Lebesgue Points and Summability of Higher Dimensional Fourier Series / Ferenc Weisz
Pubbl/distr/stampa	Cham, : Birkhäuser, : Springer, 2021
Descrizione fisica	xiii, 290 p. : ill. ; 24 cm
Soggetti	42A50 - Conjugate functions, conjugate series, singular integrals [MSC 2020] 42B25 - Maximal functions, Littlewood-Paley theory [MSC 2020] 40G05 - Cesàro, Euler, Nörlund and Hausdorff methods [MSC 2020] 46B70 - Interpolation between normed linear spaces [MSC 2020] 42A24 - Summability and absolute summability of Fourier and trigonometric series [MSC 2020] 42A38 - Fourier and Fourier-Stieltjes transforms and other transforms of Fourier type [MSC 2020] 32A35 - $H^p$ -spaces, Nevanlinna spaces of functions in several complex variables [MSC 2020] 42B08 - Summability in several variables [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
