   Titolo   Graphs and Combinatorial Optimization: : from Theory to Applications :
                         CTW2020 Proceedings / Claudio Gentile, Giuseppe Stecca, Paolo
                         Ventura editors

   Pubbl/distr/stampa   Cham, : Springer, 2021

   Descrizione fisica   xiii, 413 p. : ill. ; 24 cm

   Soggetti   05-XX - Combinatorics [MSC 2020]
                         00B25 - Proceedings of conferences of miscellaneous specific interest
                         [MSC 2020]
                         90B10 - Deterministic network models in operations research [MSC
                         2020]
                         90C35 - Programming involving graphs or networks [MSC 2020]
                         05C85 - Graph algorithms (graph-theoretic aspects) [MSC 2020]
                         90-XX - Operations research, mathematical programming [MSC 2020]
                         90B15 - Stochastic network models in operations research [MSC 2020]
                         90C27 - Combinatorial optimization [MSC 2020]
                         05C90 - Applications of graph theory [MSC 2020]
