Sommario/riassunto

This valuable book, the third volume in the Research Advances in Sustainable Micro Irrigation series, focuses on sustainable micro irrigation management for trees and vines. It covers the principles as well as recent advances and applications of micro irrigation techniques. Specialists throughout the world share their expertise on: Automation of micro irrigation systems Service and maintenance of micro irrigation systems Evaluation of micro irrigation systems Scheduling of irrigation Using municipal wastewater for micro irrigation Micro-jet irrigation and other systems The effect of potassium,
