Sommario/riassunto

Exhaustive in its scope, this book provides a comprehensive study of the natural and modified history of congenital heart disease. Focusing particularly on the discussion of fetal and post-natal outcomes, the contributors seek to place developments in historical perspective. Virtually all surgical and catheter-based strategies to enhance outcomes of all forms of congenitally malformed heart are analysed, covering the morphology and genetic basis of each particular abnormality, and issues that were germane to evolving different therapeutic strategies. Using data from the records of the Toronto

En novembre 2008, le Centre toulousain d'histoire du droit et des idées politiques a organisé à la Faculté de droit de Toulouse une première rencontre sur l'histoire des Facultés de droit de province depuis 1804. Les actes de cette première rencontre ont fait l'objet d'un premier volume en 2009, rassemblant une bonne partie des communications. Mais tout n'a pu être publié compte tenu de l'ampleur de la matière. Nous avons donc décidé de proposer un second volume destiné à compléter le précédent et de l'enrichir en demandant à des collègues qui n'avaient pu intervenir à Toulouse ainsi qu'à de jeunes docteurs liés à notre centre de recherches de nous proposer de nouveaux textes. D'autres collègues ont bien voulu également nous faire part de leurs recherches actuelles. Par souci d'homogénéité avec le premier volume, nous avons conservé le plan en trois parties. Une première partie présente donc l'état des sources et de la bibliographie pour les Facultés de droit de Dijon, Grenoble, Nancy, Poitiers et Rennes qui viennent compléter la présentation faite dans le premier volume pour Aix, Bordeaux, Caen, Douai et Lille, Lyon, Montpellier, Strasbourg et Toulouse. Une deuxième partie est centrée sur la Faculté de droit de Toulouse et une troisième et dernière partie regroupe quatre contributions particulières concernant la Faculté de Grenoble sous la Restauration, les questions protocolaires et des questions plus doctrinales autour de Georges Ripert et Cari Schmitt.
