

1.	Record Nr.	UNICASNAP0000925
	Titolo	Atlante storico della Puglia
	Pubbl/distr/stampa	Cavallino, : Capone
	Descrizione fisica	v. ; 50 cm.
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910965710903321
	Titolo	Microbial and phenotypic definition of rats and mice : proceedings of the 1998 US/Japan Conference // International Committee of the Institute for Laboratory Animal Research, National Research Council
	Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1999
	ISBN	9780309172820 0309172829 9780309520188 0309520185 9780585154015 0585154015
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (110 p.)
	Collana	The compass series
	Disciplina	599/.35/135
	Soggetti	Mice - Genetics Rats - Genetics Mice as laboratory animals Rats as laboratory animals
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.

Sommario/riassunto

US-Japan meetings on laboratory animal science have been held virtually every year since 1980 under the US-Japan Cooperative Program on Science and Technology. Over the years these meetings have resulted in a number of important documents including the Manual of Microbiologic of Monitoring of Laboratory Animals published in 1994 and the article Establishment and Preservation of Reference Inbred Strains of Rats for General Purposes published in 1991. In addition to these publications, these meetings have been instrumental in increasing awareness of the need for microbiologic monitoring of laboratory rodents and the need for genetic definition and monitoring of mice and rats.
