| Sommario/riassunto      | "Rate your pain on a scale of one to ten. What about on a scale of spicy to citrus? Is it more like a lava lamp or a mosaic? Pain, though a universal element of human experience, is dimly understood and sometimes barely managed. Pain Woman Takes Your Keys, and Other Essays from a Nervous System is a collection of literary and experimental essays about living with chronic pain. Sonya Huber moves away from a linear narrative to step through the doorway into pain itself, into that strange, unbounded reality. Although the essays are personal in nature, this collection is not a record of the author's specific condition but an exploration that transcends pain's airless and constraining world and focuses on its edges from wild and widely ranging angles."-- |
