 System; 9.1 INTRODUCTION; 9.2 INTEGRATED CORPORATE/PENSION
 PLANNING MODEL; 9.3 ASSISTING THE DEFINED BENEFIT PENSION
 SYSTEM; 9.4 CONCLUSIONS
 Chapter 10: Mortality-Linked Securities and Derivatives

Sommario/riassunto

A straightforward guide focused on life cycle investing-namely aging,
 retirement, and pensions Life cycle investing and the implications of
 aging, retirement, and pensions continues to grow in importance. With
 people living longer, the relative and absolute number of retirees is
 growing while the number of workers contributing to pension funds is
 declining. This reliable resource develops a detailed economic analysis-
 at the micro (individual) and macro (economy wide) levels-which
 addresses issues regarding the economics of an aging population.
 Topics touched upon include retirement

3. Record Nr.	UNICASUBO0344763
Autore	Feghali Gorton, Andree
