

1. Record Nr.	UNICASVEA0106524
Autore	Bayerische Staatsbibliothek
Titolo	4: Die illuminierten Handschriften des 13. Jahrhunderts deutscher Herkunft in der Bayerischen Staatsbibliothek
Pubbl/distr/stampa	Wiesbaden, : Reichert, 1998
ISBN	3895000604
Descrizione fisica	1 volume ; 32 cm
Disciplina	096
Soggetti	Manoscritti miniati - Monaco di Baviera - Bayerische Staatsbibliothek - Cataloghi
Lingua di pubblicazione	Tedesco Latino
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Volume in 2 tomi

2. Record Nr.	UNINA9910770259603321
Autore	Faye Bernard
Titolo	Large Camel Farming : A Care-Management Guide from Breeding to Camel Products / / by Bernard Faye, Gaukhar Konuspayeva, Cécile Magnan
Pubbl/distr/stampa	Dordrecht : , : Springer Netherlands : , : Imprint : Springer, , 2023
ISBN	9789402422375 9402422374
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (217 pages)
Altri autori (Persone)	KonuspayevaGaukhar MagnanCécile
Disciplina	636.295
Soggetti	Veterinary medicine Physiology Agriculture Food science Veterinary Science Veterinary Clinical Medicine Animal Physiology Food Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: General information on large camelids in the world: Origin, taxonomy, biodiversity, and new settlements -- Chapter 2: Anatomical features of large camelids -- Chapter 3: Physiology of large camelids: Life cycle, adaption to ecosystems, and reproduction -- Chapter 4: The physiological basis of large camelid lactation, digestion, and nutrition -- Chapter 5: Technical management of a camel farm with a focus on dairy: Breeding and young animal rearing, milking, and feeding -- Chapter 6: Animal health management and veterinary practices in a camel farm -- Chapter 7: Economic management of a dairy camel farm -- Chapter 8: Camel products and services: From dairy-, meat and non-food products to riding and transport, including slaughter.
Sommario/riassunto	This practical guide is intended for all actors in the sector who work

with large camelids, whether in breeding, technical advice or veterinary care. It successively describes the general aspects of the species, the physiological bases of reproduction, lactation and feeding, the main production processes, and health and hygiene management in camel breeding. Chapters on slaughter, important camel products and their processing complete the volume. Large camels (camels and Bactrian camels) are domestic animals that are increasingly used in Western countries, as well as in Africa and Asia, for tourism, sport, and production of milk, meat, and wool. In addition, camel husbandry systems are changing, taking a greater share of sedentary systems, specializing in breeding, and intensifying production. At the same time, many veterinarians and breeders are not familiar with the animal, its needs, physiology, diseases, and management, which is often based on practices introduced for cattle and proving ineffective. This work is a practical aid for all interested readers who want to embark on the adventure of working with large camelids in a cultural context where they are not yet a dominant element of the agricultural landscape. The numerous photographs and drawings that support the text make it a unique and entertaining read.
