

1.	Record Nr.	UNINA990000008220403321
	Autore	Evans, J.
	Titolo	Foundamental principles of transistors / J. Evans.
	Pubbl/distr/stampa	London : Heywood, 1957
	Descrizione fisica	XII, 255 p. : ill. ; 22 cm
	Disciplina	621.381
	Locazione	FINBC
	Collocazione	13 B 62 09
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910300126003321
	Titolo	2016 MATRIX Annals / / edited by Jan de Gier, Cheryl E. Praeger, Terence Tao
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
	ISBN	3-319-72299-9
	Edizione	[1st ed. 2018.]
	Descrizione fisica	1 online resource (667 pages)
	Collana	MATRIX Book Series, , 2523-305X ; ; 1
	Disciplina	510.71
	Soggetti	Algebra, Homological Group theory Mathematical optimization K-theory Topology Category Theory, Homological Algebra Group Theory and Generalizations Optimization K-Theory
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa

Livello bibliografico	Monografia
Nota di contenuto	<p>Part I Refereed Articles: 1 Higher Structures in Geometry and Physics -- 2 Winter of Disconnectedness -- 3 Approximation and Optimisation -- 4 Refining C* Algebraic Invariants for Dynamics using KK-Theory -- 5 Interactions between Topological Recursion, Modularity, Quantum Invariants and Low-dimensional Topology -- Part II Other Contributed Articles: 6 Higher Structures in Geometry and Physics -- 7 Winter of Disconnectedness -- 8 Interactions between Topological Recursion, Modularity, Quantum Invariants and Low-dimensional Topology.</p>
Sommario/riassunto	<p>MATRIX is Australia's international, residential mathematical research institute. It facilitates new collaborations and mathematical advances through intensive residential research programs, each lasting 1-4 weeks. This book is a scientific record of the five programs held at MATRIX in its first year, 2016: - Higher Structures in Geometry and Physics - Winter of Disconnectedness - Approximation and Optimisation - Refining C*-Algebraic Invariants for Dynamics using KK-theory - Interactions between Topological Recursion, Modularity, Quantum Invariants and Low- dimensional Topology The MATRIX Scientific Committee selected these programs based on their scientific excellence and the participation rate of high-profile international participants. Each program included ample unstructured time to encourage collaborative research; some of the longer programs also included an embedded conference or lecture series. The articles are grouped into peer-reviewed contributions and other contributions. The peer-reviewed articles present original results or reviews on selected topics related to the MATRIX program; the remaining contributions are predominantly lecture notes based on talks or activities at MATRIX.</p>
