

1. Record Nr.	UNINA990000490320403321
Autore	European solid state device research conference : <3. ; : 1973
Titolo	Solid state devices, 1973 : the six invited papers presented at the third european solid state device research conference (ESSDERC) : held in munich, 18-21 september 1973 / European physical society, Institute of physics
Pubbl/distr/stampa	London ; Bristol : The Institute of physics, ©1974
ISBN	0-85498-109-8
Descrizione fisica	157 p. : ill. ; 25 cm
Collana	The institute of physics conference series ; 19
Disciplina	621.381'52
Locazione	DINEL
Collocazione	10 PRO 329
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910483568803321
Titolo	Blockmate : a practical guide for ultrasound guided Regional anaesthesia / / Arunangshu Chakraborty, editor
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-15-9202-0
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XIII, 193 p. 155 illus., 147 illus. in color.)
Disciplina	617.96798
Soggetti	Pediatric anesthesia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Basics of ultrasound guided regional anaesthesia -- Blocks in upper limbs -- Blocks for lower limbs -- Truncal blocks -- Neuraxial blocks -- Pediatric Regional Anaesthesia -- Recent advances -- Safety and ergonomics and education.
Sommario/riassunto	This is a highly informative and carefully presented book for trainees and postgraduate students of anaesthesiology as well as practicing clinicians. This book aims to help them in selecting and implementing the most suitable regional block in each clinical scenario and successfully use the techniques of ultrasound-guided regional anaesthesia (USRA) in their practice. This book covers basics of ultrasound imaging, anatomical aspects and techniques of all nerve blocks that are commonly used in clinical practice in a lucid and illustrated presentation. Regional anaesthesia can be a safe alternative to general anaesthesia. When combined with general anaesthesia, it can provide excellent postoperative analgesia too. With the advent of ultrasound, the scope, safety and reliability of regional anaesthesia has expanded manifold. However, there is a lack of formal clinical training in regional anaesthesia in most of the anaesthesia postgraduate curricula and this book intends to bridge this gap. The book serves as a useful resource to the anaesthetist; trainee or practitioner who wants to master the nerve blocks.
