

1. Record Nr.	UNINA990000507040403321
Autore	NATO advanced study institute on advances in biological effects and dosimetry of low energy electromagnetic fields : <1981
Titolo	Biological effects and dosimetry of nonionizing radiation : radiofrequency and microwave energies / edited by Martino Grandolfo, Sol M. Michaelson, Alessandro Rindi
Pubbl/distr/stampa	New York ; London : Plenum Press, ©1983
ISBN	0-306-41017-6
Descrizione fisica	669 p. : ill. ; 26 cm
Collana	NATO ASI series . Series A , Life sciences ; 49
Disciplina	574.191
Locazione	DINEL
Collocazione	10 PRO 378
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Sul verso del frontespizio "Proceedings of a NATO advanced study institute on advances in biological effects and dosimetry of low energy electromagnetic fields which was also the fourth course of the International school of radiation damage and protection of the Ettore Majorana center for scientific culture, held March 28-April 8, 1981, Erice, Italy"
