Sommario/riassunto

Gender is one of the most productive, dynamic, and vibrant areas of Africanist research today. But what is the meaning of gender in an African context? Why does gender usually connote women? Why has gender taken hold in Africa when feminism hasn't? Is gender yet another Western construct that has been applied to Africa however ill-suited and riddled with assumptions? Africa After Gender? looks at Africa now that gender has come into play to consider how the continent, its people, and the term itself

Sommario/riassunto

Starting from a cluster of villages in southeast Albania, Albanian-born British scholar Julie Vullnetari follows rural migrants to domestic urban destinations such as Tirana and abroad to Thessaloniki in Greece. Vullnetari has conducted more than 150 interviews, and drawing upon this rich empirical material, she offers a profound account of Albanian migration from start to finish. A rare, exhaustive overview of Albania's post-communist internal and international migrations, *Albania on the Move* is a powerful combination of ethnography and multifaceted academic analysis, grounded in the personal experience of the author.
