

1. Record Nr.	UNINA990000845540403321
Autore	Lusternik, L. A.
Titolo	Elements of functional analysis / L. A. Lusternik, V. J. Sobolev
Pubbl/distr/stampa	Delhi : Hindustan publishing, 1961
Descrizione fisica	XIII, 411 p. ; 22 cm
Collana	Russian Monographs and Texts in Mathematics and Physics ; 5
Altri autori (Persone)	Sobolev, Vladimir Ivanovich
Disciplina	515.7
Locazione	FINBN
Collocazione	02 21 D 22 02 28 D 42
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910300202903321
Titolo	Trauma and Orthopaedic Classifications : A Comprehensive Overview / / edited by Nick G. Lasanianos, Nikolaos K. Kanakaris, Peter V. Giannoudis
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2015
ISBN	1-4471-6572-1
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (492 p.)
Disciplina	610 616.7 617.1 617.1027
Soggetti	Orthopedics Sports medicine Surgery Orthopedic surgery Orthopaedics Sports Medicine General Surgery Surgical Orthopedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Upper limb trauma -- Upper limb pathology -- Spine trauma -- Spine orthopaedic pathology -- Lower limb trauma -- Lower limb pathology -- General trauma -- Orthopaedic pathology -- Oncology.
Sommario/riassunto	Reporting on classification systems which are currently utilised in the clinical setting, this illustrated guide is an essential resource for all young clinicians and researchers of Trauma and Orthopaedics. Each chapter of the different anatomical sites and pathologies is designed to assist the decision making of the readers regarding treatment strategy as well as informed consent of their patients. Trauma and Orthopaedic Classifications: A Comprehensive Overview includes classifications relevant to both Elective Orthopaedic Practice and Orthopaedic Trauma.

Clear graphic illustrations accompany the description of all different classification schemes in a comprehensive manner, together with a structured presentation of existing clinical evidence. Surgeons in training right through to senior surgeons and academic clinicians will find this book to be a key reference to formulate the right decisions in their clinical practice. .
