Sommario/riassunto	70 bibliothèques ont été incendiées en France entre 1996 et 2013. Denis Merklen, sociologue, a enquêté durant cinq ans pour tenter d'en comprendre les raisons, esquisser quelques réflexions. L'objectif n'est pas seulement de donner à voir un phénomène passé inaperçu. Il s'agit aussi d'abandonner l'idée selon laquelle ce type d'événement relève de conduites insensées, voire nihilistes. Et pour cela, le premier pas consiste à sortir les élus, les bibliothécaires et les journalistes de leur état de perplexité dès lors qu'une bibliothèque est prise pour cible : nulle recette, donc, simplement des descriptions et des analyses pertinentes sur des conflits dont la nature et la signification ne sont pas évidentes.
