Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Policy analysis : contending and complementary approaches -- A fragile states framework -- The determinants and consequences of state fragility : an empirical assessment -- Assessing policy inputs : aid allocation and effectiveness in fragile states environments -- Profiles of fragility for effective risk analysis and monitoring -- Fragility relevance and impact assessment.
Sommario/riassunto	This book provides theoretical clarity about the concepts of failed and fragile states, which have emerged strongly since the 9/11 attacks. Recent contributions often see the fragile state as either a problem of development or of security. This volume argues that that neither perspective on its own is a sufficient basis for good policy. In a wide-ranging treatment, drawing on large samples as well as case studies, the authors create an alternative model of the fragile state emphasizing

the multidimensional, multifaceted nature of the "fragile state
problematique". On the basis of t
