Chapter 9: Examples of Archetypal Influences on the Formation of Financial Bubbles

---

## Sommario/riassunto

A quantifiable framework for unlocking the unconscious forces that shape markets There has long been a notion that subliminal forces play a great part in causing the seemingly irrational financial bubbles, which conventional economic theory, again and again, fails to explain. However, these forces, sometimes labeled 'animal spirits' or 'irrational exuberance', have remained elusive - until now. The Mystery of Market Movements provides you with a methodology to timely predict and profit from changes in human investment behaviour based on the workings of the collective unco
