Nota di contenuto

Introduction: airpower and strategy / John Andreas Olsen -- Paradigm lost: airpower theory and its historical struggles / Peter Faber -- The enemy as a complex adaptive system: John Boyd and airpower in the postmodern era / Frans Osinga -- Smart strategy, smart airpower / John A. Warden III -- Fifth-generation strategy / Alan Stephens -- Airpower theory / Colin S. Gray.

Sommario/riassunto

Airpower Reborn offers a conceptual approach to warfare that emphasizes airpower's unique capability to achieve strategic effects. Six world-leading theorists argue that a viable strategy must transcend the purely military sphere, view the adversary as a multi-dimensional system, and pursue systemic paralysis and strategic effects rather than military destruction or attrition. The book is divided into three parts. The first section presents a historical perspective on airpower theory and airpower strategy, tracing their evolution from the 1920s to the 1980s. The second section contains in-depth
