**Sommario/riassunto**

This volume explores a relational pattern that occurs during one type of speech event - classroom "participant examples." A participant example describes, as an example of something, an event that includes at least one person also participating in the conversation. Participants with a role in the example have two relevant identities - as a student or teacher in the classroom, and as a character in whatever event is described as the example. This study reports that in some cases speakers not only discuss, but also act out the roles assigned to them in participant examples. That is, speak
