

1. Record Nr.	UNISA990001047800203316
Titolo	Quadrangolo : rivista di psicanalisi e scienze sociali
Pubbl/distr/stampa	Roma : Bolzoni, 1974
Descrizione fisica	v. ; 23 cm
Disciplina	150.195
Soggetti	Psicanalisi -- periodici
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Il sott. varia. - Sospeso per gli anni 1981, 1984. - pubbl. cassata col n.2-3 (1985). -

2. Record Nr.	UNINA990009218590403321
Autore	Arellano, Ignacio
Titolo	Francisco de Quevedo / Ignacio Arellano
Pubbl/distr/stampa	Madrid : Editorial Sintesis, [2006]
ISBN	84-9756-432-4
Descrizione fisica	197 p. ; 22 cm
Collana	Historia de la literatura universal , Literatura española
Disciplina	863.3
Locazione	FLFBC
Collocazione	863.3 QUEV/S 2
Lingua di pubblicazione	Spagnolo
Formato	Materiale a stampa
Livello bibliografico	Monografia

3. Record Nr.	UNINA990002039320403321
Autore	Pschorn-Walcher, Hubert
Titolo	Hymenoptera : Heloridae et Proctotrupidae / Hubert Pschorn-Walcher
Pubbl/distr/stampa	Zürich : Schweizerische entomologische Gesellschaft, 1971
Descrizione fisica	64 p. ; 23 cm
Collana	Insecta Helvetica : Fauna ; 4
Disciplina	595.79
Locazione	DAGEN
Collocazione	61 V D.4/09.4
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
4. Record Nr.	UNINA9910300442003321
Titolo	The Diabetic Foot : Medical and Surgical Management // edited by Aristidis Veves, John M. Giurini, Raul J. Guzman
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Humana, , 2018
ISBN	3-319-89869-8
Edizione	[4th ed. 2018.]
Descrizione fisica	1 online resource (514 pages)
Collana	Contemporary Diabetes, , 2197-7844
Disciplina	617.585
Soggetti	Endocrinology Orthopedics Cardiology Surgery Neurology Orthopaedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Epidemiology and Health Care Cost of Diabetic Foot Problems --  
Clinical examination and risk classification of the diabetic foot --  
Diabetic Neuropathy -- Diagnosis of Peripheral Artery Disease in the  
Diabetic Patient -- Imaging of Infection in the Diabetic Foot --  
Principles of Care in the Diabetic Surgical Patient -- Physiology and  
Pathophysiology of Wound Healing in Diabetes -- Neuropeptides,  
Inflammation, and Diabetic Wound Healing – lessons from experimental  
models and human subjects -- Dermal regeneration and induction of  
wound closure in diabetic wounds -- Microvascular changes in the  
diabetic foot -- Structural and Functional Changes in Skin of the  
Diabetic Foot -- Biomechanics of the Diabetic Foot: The Road to Foot  
Ulceration -- Cell therapies: New frontier for the management of  
diabetic foot ulceration -- MicroRNAs: Novel therapeutic targets for  
diabetic wound healing -- Tissue Engineered Wound Dressings for  
Diabetic Foot Ulcers -- Preparation of the Wound Bed of the Diabetic  
Foot Ulcer -- Microbiology and Treatment of Diabetic Foot Infection --  
Topical Wound Care Treatment and Indications for Their Use -- Surgical  
treatment of the ulcerated foot -- Lower Extremity Arterial  
Reconstruction in Patients with Diabetes Mellitus: Principles of  
Treatment -- Soft Tissue Reconstructive Options For The Ulcerated Or  
Gangrenous Diabetic Foot -- The diabetic charcot foot -- Amputations  
and Rehabilitation -- Organization of the Diabetic Foot Care Team --  
Quality of Health Care -- Psychosocial and Educational Implications of  
Diabetic Foot Complications -- The Role of Footwear in the Prevention  
of Diabetic Foot Complications: the state of the art in 2016. .

---

Sommario/riassunto

In the fourth edition of this gold-standard title, a distinguished panel of experts provides a thorough update of the significant improvements in our understanding of diabetic foot physiology and its clinical management. Divided into three sections, the first part focuses on clinical features and diagnosis; the second on pathophysiology; and the third on the management of diabetic foot problems. In addition to updating all previous chapters, several new contributions have been added, reflecting advances in our understanding of the causes of diabetic foot ulcers and efforts to develop new and more effective therapies. The authors, many practicing at the famous Joslin-Beth Israel Deaconess Foot Center, again illuminate the successful new multidisciplinary approach now clearly required for successful treatment of the diabetic foot. Drawing on the experiences of diabetologists, podiatrists, vascular surgeons, infectious disease specialists, orthotists, plastic and orthopedic surgeons, *The Diabetic Foot: Medical and Surgical Management, 4th Edition* expertly describes standard techniques and current methods derived from the most recent data. This updated edition will be of significant value to all physicians and researchers with interest in a state-of-the-art understanding of the diabetic foot.
