Conclusion: Characteristics, Experiences and Transnationality of Temporary Migration: Pirkko Pitkänen, Mari Korpela, Kerstin Schmidt and Mustafa Aksakal --
Biographical Notes.

Sommario/riassunto

This book focuses on the experiences of temporary movements between Asia and Europe from the perspective of migrants and mobile people. It raises important questions such as: Why do people migrate on a temporary basis and what does this actually mean? How are these trajectories shaped? What are the implications of temporary moves for migrants and non-migrants? And how are transnational ties and practices characterized in the context of temporary migration? By shedding light on the practices and experiences of individual migrants, the book provides useful insights into understanding the challenges arising in an increasingly interconnected and mobile world. The chapters indicate that temporary migratory movements are on the rise: on the one hand on a voluntary basis such as reflected in labour migration, lifestyle migration and international student mobility, and on the other hand in an involuntary way as expressed in different forms of forced migration. Either way, temporary migration has diverse political, legal, economic, social and cultural implications, including the emergence of novel transnational networks and practices. The book is based on the findings of the international research project Transnational Migration in Transition: Transformative Characteristics of Temporary Mobility of People (EURA-NET), funded by the European Union's 7th Framework Programme for period 2014-2017. .

Sommario/riassunto	This groundbreaking book focuses on Alfred Dreyfus the man, with emphasis placed on his own writings, including his recently published prison workbooks and his letters to his wife Lucie. Through close reading of these documents, a much more sensitive, intellectual, and Jewish man is revealed than was previously suspected. He and Lucie, through their family connections and mutual loyalty, were interested in and supported the artistic, scientific, philosophical and historical movements that formed their Parisian milieu. But as an Alsatian Jew, Alfred was also critical of many aspects of technological and ideological developments, making his mentality one of skepticism as well as idealism. Norman Simms addresses the way Dreyfus perceived the world, challenged many of its assumptions and contextualized it in the style of a rabbinical midrash, a process that created what Alfred called a "phantasmagoria" of the Affair that bears his name, and also interprets the man, his milieu and his mentality in the style of a midrash, a creative, transformative reading.
