The Institute for Civil Justice; Board of Overseers; California Commission on Health and Safety and Workers' Compensation, Blue-Ribbon Permanent Disability Policy Advisory Committee; Preface; Figures; Tables; Summary; Acknowledgments; Introduction; 1. Self-Insurance in California and Implications for return to Work and Replacement of Lost Earnings; 2. Measuring Earnings Losses and Replacement Rates; 3. Data; 4. Results on Earnings Losses and Replacement Rates; 5. Comparing Results on Return to Work at Insured and Self-Insured Firms  
6. Results on Earnings Losses and Replacement Rates by Severity of Injury  
7. Explaining the Differences: The Impact of Firm Size and Pre-Injury Earnings on Wage Loss and Replacement Rates; 8. Summary and Implications for Adequacy of Compensation; A. Technical Appendix; B. Responses from Workers' Compensation Stakeholders on Report Findings; References

Sommario/riassunto

This report examines the consequences of a disabling workplace injury for workers at 68 private self-insured employers in California from 1991-5. Using employer-provided data, it estimates the earnings losses associated with a disability and the post-injury employment patterns of claimants.

Nota di contenuto	Preface -- List of Abbreviations -- Introduction -- 1. Language Admixture and Replacement in Northwestern China -- 2. Historical, Religious and Genetic Contexts of Tangwang -- 3. The Tangwang Language Phonology -- 4. Tangwang Morphology -- 5. Tangwang Syntax -- 6. About "mixed language" -- Annex -- Story in Tangwang -- Index.
Sommario/riassunto	This book studies the Tangwang language, providing the first comprehensive grammar in English of this Chinese variety, with detailed analysis of its phonology, morphology, and syntax. This fills a gap in the literature, as previously only a few articles on this language were available. The book takes an interdisciplinary approach, examining genetic data to determine historical patterns of population migration, as well as linguistic data that focus on the influence of the Dongxiang (Santa) language as a consequence of language contact on the Silk Road. The concluding chapter argues that Tangwang has not yet become a mixed language, and that syntactic borrowing has a stronger impact than lexical borrowing on languages.
