

1. Record Nr.	UNINA990003141060403321
Titolo	Neoregionalismo : l'economia-arcipelago / a cura di Paolo Perulli
Pubbl/distr/stampa	Torino : Bollati Boringhieri, 1998
ISBN	88-339-1060-1
Descrizione fisica	186 p. ; 20 cm
Collana	Temi ; 71
Disciplina	330 338.45094
Locazione	DARPU FSPBC BFS DECTS SE S PARBC
Collocazione	2976 sez. Andriello COLLEZ. 1219 (71) 338.45094 PER 1 338.45094 PER 1BIS H7.371 F/3.113 PER INU B 97
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2.	Record Nr.	UNICAMPANIASUN0055481
	Autore	Boley, Bruno A.
	Titolo	Theory of thermal stresses / by Bruno A. Boley and Jerome H. Weiner
	Pubbl/distr/stampa	Malabar (Flo) : Krieger, 1985
	ISBN	08-987480-6-2
	Descrizione fisica	XVI, 586 p. : ill. ; 21 cm.
	Altri autori (Persone)	Weiner, J. H., Jerome Harris
	Disciplina	620.1121
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
3.	Record Nr.	UNINA9910461692703321
	Autore	Quinodoz Danielle
	Titolo	Words That Touch : A Psychoanalyst Learns to Speak / / by Danielle Quinodoz
	Pubbl/distr/stampa	Boca Raton, FL : , : Routledge, , [2018] ©2003
	ISBN	0-429-90996-9 0-429-48519-0 1-283-24881-6 9786613248817 1-84940-401-1
	Edizione	[First edition.]
	Descrizione fisica	1 online resource (223 p.)
	Disciplina	616.89 616.89/17 616.8917
	Soggetti	Psychotherapist and patient Psychoanalysis Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa

Livello bibliografico	Monografia
Note generali	Original French edition, <i>Des mots qui touchent</i> , first published in 2002 by Presses Universitaires de France ... Paris.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	<p>COVER; FOREWORD; CHAPTER ONE: The psychoanalyst of the future: wise enough to dare to be mad at times; ""You are mad!""; Madness: no less mad for being invisible; Psychoanalysis goes against the grain; How is someone with no personal experience of psychoanalysis to form a picture of it?; I should like to learn to speak A language that touches; CHAPTER TWO: Heterogeneous patients: anxiety at heterogeneity; We are all heterogeneous; Compatible heterogeneous components Incompatible heterogeneous components (Albert) One split may be hiding another Helping a patient to tolerate his heterogeneity better Specific aspects of the psychoanalysis of heterogeneous patients (Laure); CHAPTER THREE: A language that touches; What is a language that touches?; An example from Elise's analysis; What is it that ""touches"" our analysands?; Listening out for bodily sensations; Other aspects of a language that touches; CHAPTER FOUR: A language that addresses the patient's ""mad part"" but does not forget the part that is not mad; A language that talks ""mad"" and ""not mad"" together ""Mad"" or not ""mad""? ""Talking mad"" while not forgetting that others do not speak this language (Livio) CHAPTER FIVE: Oedipus in search of integration; The Oedipus complex; A clinical example (Lina); A clinical example (Laure); Failure to recognize the father of infancy and the constitution of the superego; CHAPTER SIX: The interpretation of projective identification; Should unconscious-to-unconscious communication be taken seriously?; Theoretical implications of these examples; The dawning of consciousness of bodily experience (Laure, Elsa); Changing perspectives on projection and projective identification How to take full advantage of projective counter-identification (Isa, Luc, Marie) Projective identification: a misunderstood concept; Projective identification and the preliminary interviews; CHAPTER SEVEN: Words already touch in the preliminary interviews; How to speak about analysis to a patient who does not know what it involves; Emergence of insight in the preliminary interviews (Albert, Berthe); The analyst and the preliminary interviews; CHAPTER EIGHT: Touching with words and not with actions; The ""touch"" must be on the psychic level The example of Berthe: touching with actions or with words? The example of Simone; CHAPTER NINE: The words don't matter provided that they touch; The analyst who lets himself be touched by a wordless language (Sauge and ""Money""); Touching by actions or touching by speaking?; Homosexual tendencies and difficulty in symbolization; CHAPTER TEN: Fragmenting splits, or The Murderer Lives at Number 21 (Steeman, 1939); The fragmenting split (Marc); CHAPTER ELEVEN: Words that touch bring time to life; The life-enhancing effect of past-present interaction; The patient's time (Berthe) The analyst's time</p>
Sommario/riassunto	<p>In her attempt to find the words that touch, the author gives a succession of illuminating examples to indicate what a psychoanalyst and her patient may experience in the transference relationship during the course of an analysis. On the basis of her clinical experience, the author points out that we all use relatively mature psychic mechanisms and others of a more primitive nature, the former being accessible to symbolism and the latter less so. However, she notes that some can tolerate the awareness of their heterogeneity even if on occasion it causes them pain, while others are rendered so anxious by their lack of</p>

inner cohesion that they are afraid of losing their sense of identity. These people particularly need to be touched by words capable of simultaneously evoking fantasies, thoughts, feelings and sensations if they are to be able to unfold their psychic freedom and creativity to the full.

4. Record Nr.	UNINA9910298285803321
Titolo	Synaptic Tagging and Capture : From Synapses to Behavior // edited by Sreedharan Sajikumar
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-1761-7
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (278 p.)
Disciplina	610 612.8 612.8042
Soggetti	Neurosciences Neurochemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Differential role of CaMK in synaptic tagging and capture.- Compartmentalization of Synaptic Tagging and Capture -- Synaptic cooperation and competition: two sides of the same coin? -- Neurotrophin-dependent and -independent synaptic tagging and modulation of long-term potentiation: a quest for the associated signaling pathway(s) -- PKA Anchoring and Synaptic Tagging and Capture -- Activity-dependent protein transport as a synaptic tag -- mTOR and the Regulation of Translational Capacity in Late Forms of Synaptic Plasticity -- Dopaminergic Neuromodulation in Synaptic tagging and Capture -- From where? Synaptic Tagging Allows the Nucleus Not to Care -- BDNF and TrkB mediated signalling supports processes of metaplasticity and long-term memory formation -- Prescient Synapses: Gating Future Neuronal Consciousness Through

Synaptic Tagging and Metaplasticity -- Metaplasticity of Synaptic tagging and Capture: Memory beyond the circle -- Emotional tagging and long-term memory formation -- The Behavioral Tagging hypothesis and its implications for long-term memory formation.

Sommario/riassunto

Serves as a comprehensive introduction and overview of synaptic tagging and capture (STC) and covers the topic from molecular and cellular aspects to behavior. Circa 15 years ago the STC model was proposed to provide a conceptual basis for how short-term memories are transformed into long-term memories. Though the hypothesis remains unconfirmed due to technological limitations, the model is well consolidated and generally accepted in the field. Various researchers have investigated the cellular mechanisms for the formation of long-term memory using the STC model, but this is the first book-length treatments of STC. This volume features an introduction by Prof. Richard Morris and Prof. Cliff Abraham.
