Sommario/riassunto	This book constitutes the refereed proceedings of the 6th Annual International Conference on Wireless Algorithms, Systems, and Applications, WASA 2011, held in Chengdu, China, in August 2011. The 26 revised full papers and 13 invited papers presented were carefully reviewed and selected from numerous submissions. The papers address all current trends, challenges, and state of the art solutions related to various issues in wireless networks. Topics of interests include, but not limited to, effective and efficient state-of-the-art

algorithm design and analysis, reliable and secure system development and implementations, experimental study and test bed validation, and new application exploration in wireless networks.

Sommario/riassunto	Depuis une trentaine d'annees, l'edition des sciences humaines, et plus particulierement de la philosophie, est consideree comme un secteur « en crise », sans avenir economique. Les ventes et les parts de marche seraient en baisse, au profit notamment de nouveaux medias tels qu'Internet ou les supports electroniques. Quelles ont ete les principales strategies d'adaptation de l'edition philosophique et des maisons d'edition?
